

Public Session Voting – FAQ

Q: Who can participate in Session Voting?

A: Session Voting is open to everyone. You will be required to login to your vmworld.com account to participate. If you do not have a vmworld.com account, you can set one up for free.

Q: How long is Session Voting open?

A: Session Voting is open April 23 – May 6 at 5:00pm PDT.

Q: Am I voting on sessions for both events – US and EMEA?

A: Yes, this is a global voting process. Approximately 80% of sessions selected will be presented at both events.

Q: I'd like to vote on a specific track and/or session. How can I do this?

A: Once you login to the voting site, you can select a Track, Area of Interest (Healthcare, SMB, etc.) or do a Keyword Search (Session ID, title, speaker, etc.) to find specific session(s).

Q: How many sessions can I vote on?

A: You can vote on as many sessions as you'd like. You can only cast one vote per session.

Q: How do I cast my vote?

A: For sessions that you like and would like to see in the VMworld program, click on the "Thumbs Up" symbol next to the Session ID. You will receive confirmation that your vote has been counted. To remove a vote, you will need to click on the "Thumbs Up" symbol again and this will remove the vote.

Q: Will my votes be saved?

A: Yes, your votes will be saved and you will be able to view them each time you login to the voting site.

Q: How are my votes counted toward session selection?

A: Your vote, and the votes of others who participate in public Session Voting, will be reviewed by our VMware Content Team and will influence the final session selection.

Q: What are the technical level descriptions?

A: There are three technical levels:

- **Business Solution** – Sessions in this category will cover business benefits and real world examples. These sessions are suitable for any audience interested in the benefits of using certain technologies within their organization.
- **Technical** – Sessions in this category will cover technical aspects and share best practices. Targeted to anyone with a technical background, but with little to no previous knowledge about the specific topic.
- **Advanced Technical** – Sessions in this category will dive deep into the technology and will assume that the audience has previous knowledge and experience with the specific topic.

Q: Who should I contact if I have any additional questions?

A: Email: [The VMworld Content Team](#).
